## **DETAILED ACTION**

### ***Response to Amendment***

The amendment filed on April 28, 2006, has been entered. The amendments to the claims and the specification have been acknowledged and accepted by the Examiner. The replacement drawing sheet for Figure 3b received with the amendment has been accepted.

### ***Allowable Subject Matter***

#### **Claims 1-17 are allowed.**

The following is an examiner's statement of reasons for allowance:

The prior art of record, taken alone or in combination, fails to disclose or render obvious the use of a flow cell positioned in a resonant optical cavity at Brewster's angle that provides a round trip path for a source of optical radiation sent through an analyte fluid, wherein the radiation reflected back after being sent through the fluid impinges substantially at the same point that the radiation entered the cavity, in combination with the rest of the limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***
